

Himanshu Giri

Dadri, Greater Noida, Uttar Pradesh

+91-8447902672 • giri.himanshu2911@gmail.com • [linkedin.com/in/himanshu-giri-7276a3352](https://www.linkedin.com/in/himanshu-giri-7276a3352)

Education

Noida Institute of Engineering & Technology Bachelor of Technology (Computer Science and Engineering)	Greater Noida, U.P. 2024 – Present
Saint-Hood Convent School Class XII — CBSE 92.4%	Greater Noida, U.P. 2022 – 2023
Saint-Hood Convent School Class X — CBSE 96.4%	Greater Noida, U.P. 2020 – 2021

Skills

Languages: C, Python, JavaScript, HTML5, CSS3, MySQL

Developer Tools: Git, GitHub, VS Code, IDLE, PyCharm, Code::Blocks

Technologies/Frameworks: Python 3, REST APIs, JSON, NumPy, Pandas, Scikit-learn

Work Experience

IBM (AI/ML Intern)	Feb 2026 – Mar 2026
- Gained hands-on understanding of AI/ML concepts and the end-to-end model development lifecycle using Python. - Built a Salary Predictor using Linear Regression in Python, applying supervised ML concepts on real-world data. - Received a stipend of ₹4,000 as recognition for performance during the internship.	
CodSoft (Python Programming Intern)	July 2025 – Aug 2025
- Learned core Python concepts including OOP, data structures, exception handling, and file I/O. - Developed GUI-based projects — Calculator, Rock-Paper-Scissors, and Tic-Tac-Toe — using Python's Tkinter library.	

Projects

EventHub – Event Management System (Full-Stack Developer)

- Designed and developed a full-stack event management platform to streamline event creation, registration, and management.
- Implemented user authentication, event listing, and booking workflows with a responsive frontend interface.
- Integrated a **MySQL** backend to handle event data, user records, and registration tracking efficiently.
- GitHub: github.com/Himanshu-029/EVENT-MANAGEMENT-SYSTEM

Salary Predictor – AI/ML Project

- Built a machine learning model using **Linear Regression** to predict salary based on years of experience.
- Performed data preprocessing, feature analysis, and model evaluation using **Scikit-learn, Pandas, and NumPy**.
- Visualized prediction trends and model accuracy using Matplotlib to validate performance.
- GitHub: github.com/Himanshu-029/Salary-Prediction-App

Certificates

- Python Programming — Infosys, CodSoft
- C Programming — Infosys
- Artificial Intelligence — IBM
- Unix & Linux Comprehensive Training — Infosys
- MS Office — Infosys
- Digital Application Fundamentals — FSP
- C1 Level English Certificate — British Council
